RECOMMENDATION

“Olympic Casino Latvia” is willing to provide the highest level servicing standards and to implement new culture of gambling in Latvia.

We have chosen to use business management and accounting system Microsoft Navision in order to insure the high quality of our business. In each of the Baltic States we are working with a local service provider that allows us to get the system adjusted to the local needs. Before conducting the business in Latvia we made a wide research about services provided by solutions centers. As the result we have chosen company “Elva-1” to be our service provider.

“Olympic Casino Latvia” and “Elva-1” have been cooperating for more than a year. Even though it is not a long period of time it is enough to see if the cooperation has been successful. It is a pleasure to work with specialists who have gained their knowledge and experience in the wide range of projects. They understand our necessities and know how to make them happen.

As we intend to continue our growth and improvement of our services we will also work with Elva-1 in the future.

Inese Kazule
Chief accountant
Olympic Casino Latvia SIA
